Mr. Richard Skaggs
Inspection & Maintenance Review Committee
915 L Street, Suite 1435
Sacramento, CA 95814

Dear Richard:

After speaking with one of our directors who attended the May 14th Inspection and Maintenance Review Committee meeting, I was quite surprised. He informed me that the subcommittee that was your idea, and that you were in charge of, was re-formed with Joe and Dick as the only members on it.

How can they change things around so much in one meeting, especially when the most knowledgeable person on the subject the committee exists for is removed?

It would certainly appear to a bystander that they operate in a sporadic mode sometimes.

It will be interesting to hear your slant on this whole thing.

Sincerely,

Dave Bryan
Vice President
