Wilmington, CA 90744

Dear Richard,

I wanted to write you to thank you for all that you and your fuel additive have done for the diesel industry. I am proud to say that Sundance has purchased two more vehicles from another company. Give us two months and we will clean these engines up so that they run much cleaner while they're in our state. I just wish all the companies that own diesel engines would incorporate better fuel maintenance, and use the Omstar fuel additive to help clean up the diesel industry. We have used the fuel additive and had a strong fuel maintenance program for the last five years and have cleaned our buses up by 70% plus. Its a good feeling to have ones bus going down the highway not emitting lots of black smoke out the tailpipe. Richard, thank you for developing another piece of the puzzle that we can use to help run cleaner buses.

Sincerely,

  
James R. Seaton  
President
